[The derivation of benchmarks](#)

[Modelling the environmental dispersion of radionuclides](#)

[How to model atmospheric noble gas releases](#)

[What to look for when interpreting an assessment](#)

[RESRAD-BIOTA demo](#)

Practicals (no results)

(NOTE: these have been revised see <https://wiki.keh.ac.uk/x/ZgSDD> for updated information)

[ERICA Tool - tier 1](#)

[Transfer](#)

[Benchmarks](#)

[Dosimetry](#)

[Freshwater and terrestrial assessment](#)

[Marine assessment](#)

Feedback from participants

Sixteen participants attended the November 2010 course. At the end of the course we asked for oral feedback and also distributed a questionnaire. The results of the 15 completed questionnaires can be found [here](#). We have included all the comments and subsequent courses will be amended to take these into account.
